Re: Suspension of Substance Abuse Treatment Condition

On February 5, 2002, Renato Santos was sentenced in the District Court of Guam to a 41 month imprisonment term, with credit for time served, followed by a 60 month term of supervised release term for Conspiracy to Distribute Methamphetamine Hydrochloride, in violation of 21 U.S.C. § 841(a)(1) and 846, and 18 U.S.C. § 2. Conditions of supervised release included submission to the mandated three drug tests upon release from imprisonment; refrain from the use of any and all alcohol beverages; undergo a mental health assessment approved by the U.S. Probation Office, submit to any recommended treatment as a result of that assessment, and make co-payment for treatment at a rate to be determined by the U.S. Probation Office; and pay a special assessment fee of \$100. Renato Santos is being supervised by the Central District of California Probation Office.

A mental health assessment was conducted by the Asian Pacific Counseling and Treatment Center, and it concluded that mental health treatment is no longer needed at this time. In light of the assessment, the Probation Office has recommended the suspension of the mental health condition. However, monitoring will continue and a referral for treatment will be made if necessary.
